Taxonomic and biogeographic revision of the New Guinean genus *Ophiotettix* Walker, 1871 (Tetrigidae: Metrodorinae: *Ophiotettigini* trib. nov.), with the descriptions of 33 new species

(PDF) Taxonomic and biogeographic revision of the New

Aster is a genus of perennial flowering plants in the family Asteraceae. Its circumscription has been narrowed, and it now encompasses around 180 species, all but one of which are restricted to Eurasia; many species formerly in *Aster* are now in other genera of the tribe Astereae. *Aster amellus* is the type species of the genus and the family Asteraceae. The name *Aster* comes from the Ancient ...

Aster (genus) - Wikipedia

Testudo is a genus of tortoises found in North Africa, western Asia, and Europe. Several species are under threat in the wild, mainly from habitat destruction. They are small tortoises, ranging in length from 7.0 to 35 cm and in weight from 0.7 to 7.0 kg.

Testudo (genus) - Wikipedia
