Rhesussystemet er et system af blodtyper.I Danmark er 85% af befolkningen rhesus-positive, det vil sige, at de har et rhesus-antigen på de røde blodlegemers overflade, medens rhesus-negative personer mangler dette antigen. Blodtyper spiller en rolle ved blodtransfusioner og vævstransplantationer.Et andet almindeligt anvendt blodtypesystem er ABO-systemet.
