HERCULES BEETLE - WIKIPEDIA

rhinoceros beetles as pets pdf

Dynastinae or rhinoceros beetles are a subfamily of the scarab beetle family (Scarabaeidae). Other common names – some for particular groups of rhinoceros beetles – include Hercules beetles, unicorn beetles or horn beetles. Over 300 species of rhinoceros beetles are known. Many rhinoceros beetles are well known for their unique shapes and large sizes.

Dynastinae - Wikipedia

The Hercules beetle (*Dynastes hercules*, Dynastinae) is a species of rhinoceros beetle native to the rainforests of Central America, South America, and the Lesser Antilles, and is the longest extant species of beetle in the world, and is also one of the largest flying insects in the world.

Hercules beetle - Wikipedia

National Geographic stories take you on a journey that's always enlightening, often surprising, and unfailingly fascinating.

Devil In The Dark (1967) The Horta was an example of Silicon life.; Now we are really sailing off into terra incognita. "Here be dragons" and all that. But if you have starships, you almost have to have aliens (Isaac Asimov's Foundation trilogy being the most notable exception). The "science" is called Astrobiology, the famous "science in search of a subject".
