Cross country running is a sport in which teams and individuals run a race on open-air courses over natural terrain such as dirt or grass. Sometimes the runners are referred to as harriers (dogs). The course, typically 4–12 kilometres (2.5–7.5 mi) long, may include surfaces of grass, and earth, pass through woodlands and open country, and include hills, flat ground and sometimes gravel road.

Training program evaluation is a continual and systematic process of assessing the value or potential value of a training program. Results of the evaluation are used to guide decision-making around various components of the training (e.g. instructional design, delivery, results) and its overall continuation, modification, or elimination.

Training Program Evaluation - Training and Development
