If public health warnings were based on actual risk, rabies from bats would be near the bottom of the list. On a global scale 99

percent of human rabies comes from dogs, killing more than 60,000 humans annually. 1 In contrast, transmission from bats is exceedingly rare. Colonial species, the ones typically found in buildings, rarely become aggressive even when rabid 2 and normally bite only in ...

The performance of the Eurozone economy is inextricably linked to the health of its banking system. That means the economy will likely stagnate unless European banks can build robust balance sheets, earn a competitive return on equity, and generate adequate capital to support faster growth and innovation.
